

FACT SHEET

FEBRUARY 2019

ANIMAL WELFARE OBLIGATIONS FOR PAINFUL HUSBANDRY PROCEDURES IN CATTLE

CASTRATION

Pain relief MUST be used if animals are over six months old

Use correct size of rubber ring

- Ring above testes and below teats
- If using high tension band then anaesthetic must be used (any age)

⚠ MINIMUM STANDARDS

No painful procedures to be performed on animals under 12 hours old

DISBUDDING OR DEHORNING

From 1/10/2019 local anaesthetic authorized by a vet **MUST** be used on animals of all ages when disbudding or dehorning.

Disbudding

Thermal cauterising or chemical techniques must not damage animal tissue beyond the bud

Dehorning

Method must minimise pain, distress and risk of infection. If animal over nine months old then pain relief **MUST** be used

RECOMMENDED BEST PRACTICE

Always use pain relief for any age

If using surgery, work hygienically

Seek veterinary advice on best methods

GENERAL INFORMATION

Apply rubber rings to neck of scrotum between 1-4 weeks of age

No rubber rings after four months of age

RECOMMENDED BEST PRACTICE

Animals should be disbudded in preference to being dehorned

Use pain relief for any age when disbudding or dehorning

Use wound dressings to prevent blood loss when dehorning

Inspect animals during healing period after dehorning and treat infected wounds

If in doubt, seek veterinary advice on best methods
