

GENERATION NEXT

*Our Futures' Sheep
and Beef Farmers*

About the programme

A technical programme for practical people involving the delivery of three physical workshops and one online webinar over a four to six-month period (depending on region).

Designed to nurture, assist and encourage the current and future farmers within our sector.

Modules

- Understand the farm business – financial basics and management
- Develop better decision-making skills
- Understand technology and genetics within the industry
- Understand the importance of managing mental health and personal wellbeing
- Understand the overall industry goals and aims

What past programme graduates are saying

“Just being able to see the big picture of the farm business, learning a bit about so many different aspects of the farming business”

“Throughout the programme I have grown my confidence and got value from gaining a mentor”

“Before the course I never really wrote down goals I just thought them and dreamt, but now I have them in writing I am more determined.”

Selection Criteria

- Actively working on a livestock property (associated levy payers)
- Willingness to learn new skills and understand the drivers to improving on farm profitability of the sheep and beef sector
- You must be able to attend all three workshops (no single workshop attendance)

If you are a successful applicant for this programme please note there will be a small amount of pre work sent to you prior to the start of the programme.

Free programme to all associated levy payers and their employees.

Please note all travel and beverage expenses are the participants own cost. All meals and some accommodation costs are covered.
