

# GENERATION NEXT

## Programme pre-work

As we get closer to the start of the programme, we ask you to please write down your 5-year goals. Split your goals into 3 categories: personal, career, and social.

Try to make them **SMART** goals – **S**trategic; **M**easurable; **A**ttainable; **R**ealistic; **T**ime

### Some examples of what your goals may look like?

- E.g. raise some calves and build capital
  - Raise 20 calves by end of November 2024 making a profit after expenses
- Hold a stock managers position, managing 5000Su in the Southland Area by 2025
- Join the local fire brigade by March 2023

### Think about how will you go about achieving your goals?

- E.g. I will talk to my boss about calves on farm and put my name down for 20 calves at the local dairy farm before calving starts

*We will be referring to these throughout the programme*

Personal (family, yourself)
Career (work goals)
Social (sports, community)
