

# Rural Roadshow 2022

## Freshwater policy reforms and the One Plan

You are likely aware of the ways the NES affects you and your farm, and community, but you may not be as aware of the National Policy Statement for Freshwater Management (NPS-FM).

The NPS-FM results in a One Plan revision which will impact you and your community, with the draft revision to be ready by the end of 2024 for public consultation.

Join rural advice, policy and science staff from Horizons Regional Council to hear about freshwater reforms and what they mean for the One Plan and rural communities. Staff will be available to answer questions and provide information about key elements of freshwater environmental regulation that we encourage you to get involved in.

Details for the roadshow are below. Each session will include approximately 30 minutes at the beginning to have a cup of tea, an hour presentation, and staff will be available for another hour afterwards for a chat.

For more information about the NPS-FM visit [freshwater.horizons.govt.nz](https://freshwater.horizons.govt.nz) and sign up to the Oranga Wai [e-newsletter](#) to stay up to date.
